### Short summary of idea\*

Options for Cropped Image in News

### Application/Area

News

### Description

When you upload an image you have to crop it for the 'preview' picture when in the main news area ("/news/"). However when you go into the article itself ("/news/###") the picture is still cropped.

It would be nice that when creating an article you have an option to either, when viewing the article itself:

- Leave the image cropped
- Expand the image in a "lightbox" fashion
- Make the image full-size
