Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Permissions with the Project Component

Application/Area

Projects

Description

Currently the project component is user specific, and therefore, in order to see the projects going on for a certain business line, even at a high level, users need to be added on as team members. We had intended on utilizing the component differently and wanted to grant certain user groups the permission to view only. Please consider adding/changing the component to allow users/group permissions.
