Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Add the ability to 'copy' menus.

Application/Area
Menu Builder

Description
I am currently duplicating one of our menus, three times over, each with minor changes. These are quite complex and I'm having to copy & paste the details of each item to the new menu structure, and it is taking a very long time, and is repetitive work.

Is there any way to add the feature to simply copy a menu, which I can then make my minor changes to the 2nd one afterwards?

Thanks.
