Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Auto assign a badge to a course, so when person completes, they get the badge

Application/Area
Learning

Description
Right now, you have to manually assign badges to people. I'm using this mostly for coursed they've completed in the LMS, although I know we can use badges for other things.

In the LMS, it would be great to associate a badge with a course, so that the system automatically awarded the badge when the course is completed.
