Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Mass update to a number of forms in Infocapture

Application/Area

Infocapture

Description

As an admin user,

I want to be able to update certain settings in infocapture project and then apply these to a select number of forms. For example, all SLA settings, Notification rules, triggers, field condition sets etc.

This is because I have up to 15-20 forms which share the settings and updating them individually will be time-consuming and error prone.
