Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Filter based on more than one category at a time in Policy Manager

Application/Area

Policy Manager

Description

Currently you are only able to filter documents based on category in the Policy Manager even though you are able to specify multiple categories for one document.

It would be very useful to be able to filter on more than one to be able to easily identify specific documents.
