Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

## Short summary of idea\*

Add Markdown Support in Infocapture Notes

## Application/Area

Infocapture

## Description

It would be great to have Markdown functionality in Infocapture notes to better organize or highlight the various pieces of information that might be available there.

Here's some links that might be helpful!

List of Markdown Implementations

- <https://www.w3.org/community/markdown...ntations> (<https://www.w3.org/community/markdown/wiki/MarkdownImplementations>)
- I couldn't remember if Claro was built on PHP or what but there's quite a few options on there

Usage Guide

- <https://guides.github.com/features/ma...arkdown/> (<https://guides.github.com/features/mastering-markdown/>)
- Can't tell you how helpful this doc has been for learning how to use Markdown.

The thing I think would benefit users most in implementing Markdown is the code formatting.

This change could also be applied to any of the comment like boxes that don't have full rich text editors.

Thanks and have a great day!
