Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Add Completed Date filter options to Training Module Report

Application/Area

Reports

Description

In the Training Module Report screen, it strikes us that the ability to filter for any modules which have been completed within a given date range would be extremely useful.

So for example, on a Monday morning, we could go to the module report and enter the dates of the previous Saturday to Sunday and see who had completed modules/courses over the weekend.

The additional date from/to filter options could fit nicely into the filter options on the left side, just below the Modules/Assessment field.

This would act upon the "Completion Date" shown in the resultset. (And yes, we know we could export the whole CSV then filter it - but that is additional work and would be nice just to see it on-screen instead).

Thanks.
