Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Options for how to open learning material

Application/Area

Learning

Description

When using a URL for learning material today, the button only opens in a new window. The way we want to use the LMS/course function, this gets messy real fast, as you are left with several open windows at the end of a course.

We would prefer it if it is possible to choose whether you want your learning material to open in the same window, new tab or new window when setting up the course.
