Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Manual Versioning Control

Application/Area

Other

Description

It would be helpful to make versioning control of any content in Claromentis manual.

Folks will already have content that is in it's second or more iteration, and should not have its versioning reset when uploaded to Claromentis.

Also, teams will need to work on incremental changes to items (e.g. P&Ps) before being ready to officially update the version #.
