Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Submitter as option in field conditions and triggers

Application/Area
Infocapture

Description
I would love the ability to create a notification that would look at a specific submitter and status.
Example: Submitted by = Jeremy Voldrich and Status = Approved > send notification to "Specific User"

Or just the ability to have submitter as a field option for field conditions and triggers would be great and should allow for the scenario above.
