Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

**Short summary of idea***
Options to make enroll button stand out more

**Application/Area**
Learning

**Description**
It would be great if you could add a css class or ID specific to the enroll button on the main course page so that it can be given some custom styling (without changing all of the other primary buttons). For example, I do not want to change our primary colors but they make it so the button does not really pop out as a call to action.
