Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Automate "drip release" of content over time with courses and learning paths

Application/Area
Learning

Description
We have a program where learners need to receive access to a new module each week, currently I would have to manually do this which is quite a bit of work.

Ideally this would be an option that could be set when publishing a course or learning path which automatically gives them access to the next step at the appropriate time.
