Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Two Click system for changes to "Whole Sequence" in Calendar

### Application/Area

Calendar

### Description

All users enter their out of office diary entries/meetings in the calendar. This is a shared diary so we can see where everyone is. We do not want the ability to change the whole sequence in "out of office". This has been done accidentally and has wiped all out of office diary entries for the past twelve months! Maybe a second confirmation/warning for "whole sequence" changes or the ability to remove this on certain calendars would be beneficial.
