Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Have Footers in Master Page Design

Application/Area

Other

Description

It would be nice to have a footer be part of Design. In Design, we can set our colors, logo, font, etc etc etc., it would be great to also be able to set our footer here as well (usually would include verbiage like "For internal use only / proprietary, contact sys admin with issues").

Currently we have to create an html text box on each page to create footers. Footers typically should be the same on every page.
