Emoji reactions on discuss

Application/Area
Discuss

Description
We use a discuss channel for all of our stores to interact with each other, and check for stock/ system issues between them. Often they ask 'do you also have the following issue' (for e.g). so it would be good that you can add 'reactions' like in slack - where you can add a tick box and an x box and then more people can just click on those instead of all responding, yes or no!

Hope that makes sense
