Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Front end ability to see who has viewed a News article

Application/Area

News

Description

In Documents, on the preview view to the right of the document we can see who has viewed the document. We would like to do the same with News articles.

We have access to this data through the Audit Logs, but the authors of our articles would like the ability to see who and how many people have viewed the articles they have written on the article page.
