Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Ability to have users test surveys

Application/Area
Survey and Polls

Description
Currently it appears that only those with admin access to a survey can test a survey that has been created, and is saved in draft mode.

It does not appear that we can clear out any answers from a published survey.

To that end, it would be very very helpful to be able to send a URL to any testers that we need to, in order to be able to test a survey and get feedback before publishing it.
