Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Improve CK Editor AND Table Formatting

Application/Area

General

Description

We get alot of feedback that the CK editor is incredibly difficult to work with. It's not very WYSIWIG (esp tables), and folks would like better options over all with all format editing and image options (like hover-over to enlarge an image, etc.)>

We have been told before that your editor was created from a third party that cannot be changed, but I think that you will find that you will want to provide clients with another answer soon enough.

The tables especially are horrible to deal with. Inconsistent pre-set formatting, and low ability to control its formatting.
