Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Sharing surveys / polls

Application/Area

Survey and Polls

Description

Share feature allows creating a notification / email to users. However it does not allow selection by role or group.

I know it is possible to configure a notification to be sent at the point of creation of a survey, but it does not allow to create a meaningful message which accompanies the survey.
