Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Disable entry drag-and-drop

Application/Area

Menu Builder

Description

Hello, could you please install feature to either allow an admin to disable entry drag-and-drop in Tree View, as it is all too easy to accidentally move and entry without confirmation of changes, causing unknown permissions changes. Also alternative idea could code in a "Confirm on drag and drop move" pop-up to prompt the user Yes/No if they want to move the entry or a "Save" button on the bottom the page that a user must click to acknowledge intentional changes are to be applied.
