Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Allow comments in distribution mode

Application/Area

Policy Manager

Description

For compliance reasons to log that you have reviewed a policy when there is no need for a new version we would like to use the comment section - however this is only available through "Draft" mode. Which then again results in all employees having to reaccept to having read a policy when there has not been any changes. It would be good if companies could allow for comments for some specific users in "Distribution" mode where this is a requirement. For us we are ISO27001 certified and have specific requirements to comply to that will also be checked by auditor.
