Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Able to Embed NEWS Timeline in Another Area

### Application/Area

News

### Description

The NEWS component shows a timeline of articles we've posted going back since we started using Claromentis. With PAGES and the option to add NEWS to a page we would like the timeline to show up so users can see current articles but also have quick access to past posts. This would be especially helpful because of how we used NEWS during the pandemic.
