Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Bulk update a field in Infocapture (with different values)

Application/Area

Infocapture

Description

It would be good if you had the option to do a mass update of 1 or more fields, by supplying the ID columns and the Field(s) to be updated column(s).

Rather than having to do a export and re-import of data, as I have found this method prone to error.

It would be good if the ability to do this was permission based, so didn't have to be done by an admin.
