Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Show current events on the discussion page in Discuss

### Application/Area

Discuss

### Description

In the Discuss application, the discussion page will show off to the side, a list of events. However, if any of those events occur over a range of time, and is entered that way, once the start date of that event is reached, it disappears from the discussion page entirely. Users have to know and go to the event section to see "current" events. All current events should show on the discussion page, which is where the majority of people visiting a discussion will spend their time.
