Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Ability to set hidden custom day types.

Application/Area

Holiday Planner

Description

Currently the system has 'working days' as a hidden day type. There is no functionality to add custom day types to be hidden.

It would be ideal if we could create a custom day type then set it to hidden. This will enable managers to view these custom day types. A use case for this would be configuring a sickness/absence custom day type that only managers and that specific user can see and no other team members can see this.
