Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Allow filtering of news using tags in the News application

### Application/Area

News

### Description

It would be great if we could filter news in the news application based on tags (news "including" and "excluding" specific tags).

That would help filtering news by importance for example (must know/nice to know etc.), within a same category without having to multiply news channels.
