Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Select multiple folders to display in Documents Tile

Application/Area

Documents

Description

We have folders that are in different directories that we would like to be able to display together.

E.g. Store safety docs all in one directory, but show up on relevant department page document tile, alongside department's other docs.

Alternative would be to have links for folders instead of just files.
