Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Automatically resolve Linked document when uploading policy from documents

Application/Area
Policy Manager

Description
Using the documents app we created a symlink from original document A to link B.

In the Policy Manager, if we try to upload link B from the documents, we get the error "Attachment not found or permissions denied. Only simple documents can be converted to file."

Rather than throwing an error, it should resolve link B and automatically upload file A
