Polls & Survey's needs a 3rd permission type

Application/Area

Survey and Polls

Description

When you have a poll/survey, you specify permissions - users can either view/take the survey, or "manage" it, in which they can edit the survey and view response statistics.

This latter option really needs to be split into two. I only want a FEW people to be able to EDIT it. However we have many people who need to be able to VIEW RESULTS/STATISTICS.

Currently I'm having to grant all these people Manage permissions, even though I only want them to be able to view the results...

Please consider a "View Responses" permission type.
