Credit on Expenses

Application/Area

Expenses

Description

The ability to add a credit to an Expense sheet. Today, there is no way to indicate a credit that is sitting on the person's Expenses.

The scenario: On occasion, it happens when someone submitted an Expense that was approved. Reimbursement was already sent, but something changed at a later date (i.e. final charge was different or a return occurred) that needed to accommodate the credit on the person's next Expense submission.

There is no way to accommodate that, and shows a discrepancy when doing any sort of auditing or compare to payroll reimbursement.
