Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Enable possibility to replace site home-page

Application/Area
Pages

Description
As an administrator of an intranet, we might see scenarios where our current setup on the intranet needs to change.

If this is the case, it would be very beneficial to be able to build and test out a new setup on a home-page of a site, and then, when ready, exchange this new site with the current home-page.
