Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Preview word documents in the Policy Manager

### Application/Area

Policy Manager

### Description

In the Document Manager if you upload a word document it allows people to preview the document within the web page.

However, in policy Manager if you upload a word document the only choice users have is to download the document, which means they are ending up with a local copy of the document (it allows you to preview PDFs).

This functionality should be consistent in both areas.
