Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Sort Doc Lists Ascending or Descending

### Application/Area

Documents

### Description

We have an archive list of documents that we name the files in with a date so they can all be viewed in order of when added. By default when we add a new document it is added to the bottom of the list making users have to scroll down to see the latest doc. I would love to see an option to sort these lists Ascending or Descending so we could have the newest item added on the top of the list.
