Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Prompt Pop-up When Bookmarking Pages

### Application/Area

General

### Description

Currently, when users are bookmarking a page and they select "Bookmark this page" no prompt comes up to label the bookmark so the page is technically on their list but is not visible. A user then has to, on their own, go into the "Edit bookmarks" to create a label. This has caused users to bookmark the same page multiple times because they think the process is broken. Is there a way to have a prompt appear once they bookmark to have them name?
