Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Add status limiter to InfoCapture to see tickets with specific status

### Application/Area

Infocapture

### Description

It would be great to be able to filter by status in the ticket list of InfoCapture forms. Right now, I believe all we can do is click on Status to re-order the list. I'd like a drop-down or radio button to select a status and see all tickets that have that status.
