Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Possibility to see all the pages of a PDF in the app, not only the first one!

### Application/Area

Documents

### Description

Hi! Many users who pointed me that for all the PDF docs that have MORE than one page, there is only the first page that is showing. On the computer, in the browser, there is no problem to see all the pages of the doc. I propose that you can access all the pages of a document, even if it is consulted in the app!
