Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Ability to see important Claromentis updates in Intranet

Application/Area
News

Description
I just saw the issue pop up regarding the issue with Chrome browser v102.

It would be great if your news (claromentis) could automatically come through as dedicated channel?

The channel would automatically notify customers, without having to come to Discover.
