Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Add metadata in the people cards view

Application/Area

People

Description

The ability to add metadata to the card view on the people list and the people widget. For a specific example, we have employees extension as a meta data field and while we can see it on the list view, it would be nice to be able to see it in the card view as well.
