Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Separate out Quiz notifications from Poll & Survey application

### Application/Area

Quiz

### Description

Quiz application is separate, but there are no notification settings available, and they default to sending to everyone, regardless if they have access to that quiz or not.

Please split these notifications out from the Poll & Survey application, as these quizzes are sometimes used to hook into the LMS modules, and things like new hire quizzes don't need notifications to be sent to every user across the platform.

If the Quiz application UI is connected with the Learning application, then the notifications should follow that user experience.
