Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Change Document Owner to Document "Creator" or "Uploader"

Application/Area

Documents

Description

We manage documents centrally that get published in Claromentis. We have created a separate metadata field for Document Submitters. But the content admin member who uploads the documents are always listed as the "owner" when they aren't, they are just the uploader / admin. This could be confusing for folks if they didn't understand the difference between a document submitter (the true owner) and the document owner (the uploader). It would be nice to change the system metadata field title for Document Owner to Document Uploader.
