Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Move menu items in Menu Builder

### Application/Area

Menu Builder

### Description

Hey,

I raised Ticket ID: 038661 to ask about how to move items between menu nodes and unfortunately there isn't a way. Items must be deleted from the old location and recreated in the new.

It would be fantastic if we could just change the "containing folder" of an item so that things can be moved/organised easily.

Cheers

Mike
