Multiple installments of Thank You module

Description

We have multiple internal programs, each with different names, to allow employees to recognize one another. We are currently using the Thank You module for our organizational wide program (ex. Cheers for Peers).

Department feedback has been positive and department leaders would like to use the module for their individual recognition programs (ex. Exemplary Care). It would be nice to be able to have multiple installments of the Thank You module or different categories of thanks to differentiate between the recognition programs since users are already engaging with this module, are familiar with how it functions and are enthusiastic about using it.
