#### Description

Hello,

we are having problem with image gallery.

We want to view photos based on their title. We encountered an issue where when uploading photos to the gallery, they are not displayed from top to bottom, but from bottom to the top, or are displayed scattered (for example, if there are many photos uploaded). We want to show images from the beginning if there are pictures named IMG001, IMG 001, IMG003 to IMG100 but not from IMG100 to IMG001.
