Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Add Preferred Name option to greeting.

Application/Area

Other

Description

I just noticed there's no option to use "preferred name" in the Greeting component, so people who prefer a name other than their legal name would still be greeted by their legal first name every time they log in. We sync to a separate directory for our People data, so any edits in the intranet itself would be overwritten by the information in the source directory (which does have a preferred name field).
