People's Birthdays & Start Dates on Calendar

Application/Area

Calendar

Description

Hello,
We were looking for a way to see all of our user's Birthdays and Start Dates on a Calendar, rather than just in the "Anniversaries" Page Component. That way we could see past birthdays or ones that are further ahead than that Page Component will show.
The dates are already in the user profile fields in People. Can they be integrated into the Calendar app?
Thanks!
