Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

BUTTONS: possibility to add gradient backgrounds BEHIND icons

### Application/Area

Other

### Description

Add the possibility to have gradient as background color BEHIND an icon. Alternatively, have the possibility to add an image BEHIND an icon, so it is easier to update just icons while keeping a gradient background identical for multiple buttons.

(bonus points if the number of available icons can be increased :-) )

Thanks for considering!
