Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Make People - Contact List "Other's contacts" searchable, so that "global" contacts could be found

Application/Area

People

Description

Hi,

Would it be possible to make People - Contact List "Other's contacts" searchable, so that "global" contacts could be found when searching use the site search?

This would be especially helpful with our department level contacts, meaning for phone numbers not assigned to one person, like for Department main (HR, Helpdesk, etc.), rotating after hours/emergency and conference room numbers.

Thanks!
