Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Make People - Contact List "Other's contacts" updatable through API

### Application/Area

People

### Description

Hi,

Would it be possible to Make People - Contact List "Other's contacts" updatable through the API? This would be especially useful when keeping our department level contacts, meaning for phone numbers not assigned to one person, like for Department main (HR, Helpdesk, etc.), rotating after hours/emergency and conference room numbers updated automatically.

In our case, phone numbers and locations updated from external phone system, job titles and department names would be updated from our HRIS (UKG).

Thanks!
