Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*
Batch upload images for Knowledge Base covers

Application/Area
Knowledge Base

Description
It would be great to have the ability to batch upload images for Knowledge Base covers. In my case, we're setting up a knowledge base with multiple topics repeated across 14 countries. We're using the covers as a quick way for people to visually identify the topic of an article in search, so we want to use the same image for each topic, regardless of country.

It would save a lot of time on the setup end if I could go to one place, select an image and have that be uploaded as the cover for all the articles at once.
